Format: **NTSC (US, Canada)**

You are bidding on a working Atari 2600 CX2649 Game Program cart. The program is tested and works perfectly. In addition to the working program, this cart has some additional features. There is a built in SCSI port to hook up SCSI Hard drives, etc. There is a Parallel port to hook up your printer, zip drive etc. There is a SVGA port on the top to plug in a standard computer monitor. Also there is a 15 pin serial port on top.

I was unable to test the other ports, I don't own those type of system parts to test them.

Sold as is due to age.
