## Description

**Official Wireless SNES Controller - Uber-Rare!!**

---

For auction we have a official wireless SNES controller, I have never seen another one of these in the 92 years I have been using ebay!!!!11!!

This special and unbeleevably rare (RARE!! like the game maker guys!! they're hard to find too!!!) Nintendo game control thingy won't get tangles up liek the rest.. because it's wireless and RARE!!

It doesnt even need battaries and it can be taken as far away from an Xbox as you want!! (WHOA!!)

because these are soooo RARE (!!!) I've seen them go in ebay for as much as someone might have been willing to pay if they had bid on it!!

**Auction things you have to agree to:**

- you can only bid if you were born under the light of a blue moon in the field of forgotten monkeys, in the presence of a purple priest trained in the mystic arts of Nin-ten-do.
- Item is only available for collection, however we don't much like strangers around here so anyone trespassing within 200 man-shoes of my land will be fed to the moles.

Payment is only accepted via ritual chanting and sacrifce to gaming

**Important Disclaimer:** The above description does not pertain to the actual contents of the auction, and any winning bidder will not recieve anything even remotely matching or relating to the item description above. There is very little point in bidding on this auction, however anyone even considering placing a bid would be far better advised to make a donation to a far more worthwhile cause such as comic relief who's humourous fund-raising tactics are far more entertaining and amusing than this auction.
