WINTER GAMES™

INSTRUCTION MANUAL

for the Commodore 64™/128™

MOMENT OF TRUTH

You're an athlete at the 1988 Winter Games at Calgary, Alberta, Canada. You're about to move across snow and ice with as much speed, strength, endurance and grace as you can muster in the blustery cold.

This is the winter portion of the world's foremost amateur sports competition. You'll match your skills against the top athletes from a hundred countries.

Be proud. Today you stand among the elite few whose courage and stamina will be tested by these Winter Games. Listen. A fanfare of trumpets sounds as the WINTER GAMES flag is slowly raised. Thousands of white doves are released, symbolically to fly to the countries of the world with the message of peace—and the news that the Winter Games have begun. This is it—your chance to go for the Gold!

OBJECTIVES

WINTER GAMES challenges your competitive skills with a series of athletic contests for 1 to 8 players. You can compete in seven challenging winter events--*Ski Jump, Bobsled, Figure Skating, Freestyle Skating, Hot Dog Aerials, Speed Skating* and *Biathlon*(cross-country skiing and rifle shooting).

Practice each event first to hone your skills. Then choose from the 18 countries you can represent in the competition, and go for the gold!

WINTER GAMES provides judges, keeps scores, and awards medals to the winners--the Gold for first, the Silver for second, and the Bronze for third place. If you break a "World Record," **WINTER GAMES** will save your name and display it on a special World Records screen.

Get ready to give it your best--and remember the motto of the ancient Greek athletes:

Citius--Altius--Fortius

"Faster--Higher--Stronger!"

GETTING STARTED

Loading Instructions

- Set up your Commodore 64/128 as shown in the Owner's Manual.
- Remove all disks from the drives.
- Plug your joystick into **Port #2**. If you're using two joysticks, plug the second joystick into **Port #1**.
- Turn the computer and disk drive **ON**.
- Insert the WINTER GAMES disk into the disk drive, with the **Side 1** label facing **UP**, and the oval cutout pointing towards the back.
- Type **LOAD"*",8,1** and press the **RETURN** key.
- **Commodore 128**: Set system to **C-64 Mode**.

To use the EPYX FAST LOAD™ Cartridge:

- Set up your Commodore 64/128 as shown in the Owner's Manual.
- Insert the **FAST LOAD** Cartridge into the cartridge slot of your computer. **Commodore 128**: **FAST LOAD** Cartridge automatically sets system to **C-64 Mode**.
- Plug your joystick into **Port #2**. If you're using two joysticks, plug the second one into **Port #1**.
- Turn the computer and disk drive **ON**.
- Insert the WINTER GAMES disk into the disk drive, with the **Side 1** label facing **UP**, and the oval cutout pointing toward the back.
- Press the **C=** (Commodore) key and the **RUN/STOP** key to load the program.

STARTING PLAY

Opening Ceremony

A spectacular opening ceremony welcomes you to WINTER GAMES. An athlete bearing the flaming torch mounts the steps to light the sacred fire that burns night and day throughout the WINTER GAMES. White doves are released over the stadium, to symbolize peace on earth. Let the games begin!

How to Play

Once the opening ceremony concludes, a menu screen offers you a choice of six options. To make a selection, use your joystick to move the cursor to your choice, then press the **FIRE** button.

OPTION 1: Compete in all the Events

Compete in all seven events, in this order: *Ski Jump*, *Bobsled*, *Figure Skating*, *Hot Dog Aerials*, *Freestyle Skating*, *Speed Skating*, and *Biathlon*. The computer keeps a running tally of medals awarded to each player.

- To enter your name, type your name on the keyboard and press **RETURN**.
- To choose your country, use the joystick to move the cursor to the flag of your choice, then press the **FIRE** button to select that country.
(To listen to the country's anthem, type S.)
- Repeat name and country selection for each additional player (up to eight). When all players' names and countries are entered, press **RETURN**.
- A verification screen appears. If all names and countries are correct, select **YES** with the joystick and press the **FIRE** button, or type **Y**. To delete names and start again, select **NO** or type **N**.

OPTION 2: Compete in One Event

Similar to OPTION 1, but you only compete in the event you select.

- Use the joystick to choose the event, then press the **FIRE** button.
(Or type the key matching the event number.)

OPTION 3: Practice One Event

No scores are kept during practice rounds.

- Move the joystick to choose the event, then press the **FIRE** button. (Or type the key matching the event number.)

OPTION 4: Number of Joysticks

For one player, plug your joystick into **Port #2** and select 1. For two or more players, plug both joysticks in and select 2.

- Select 1 or 2 by pressing the **FIRE** button.
(Or type 1 or 2.)

OPTION 5: See World Records

Displays the highest score recorded in all events, with the name and country of the player who achieved each world record.

- Press the **FIRE** button to return to the menu.

OPTION 6: Opening Ceremonies

Repeats the opening ceremonies.

THE GAMES

Figure Skating

Figure Skating (Short Program) is a one-minute, timed exercise of seven compulsory movements: **Camel Spin, Sit Spin, Double Axel Jump, Triple Axel Jump, Double Lutz Jump, Triple Lutz Jump, and Camel into Sit Spin.** You can perform the seven movements in any order you choose. It's the grace and form of your skating that count!

- Press the **FIRE** button to start **Figure Skating**.
- To begin a movement, point the joystick in the direction of the movement you want to make and press the **FIRE** button.
- To **COMPLETE** a movement, center the joystick and press the **FIRE** button.
- To **SKATE BACKWARD**, center the joystick and press the **FIRE** button.

These are the key Figure Skating movements, in their relative joystick positions:

Joystick Controls: Figure Skating and Free Skating

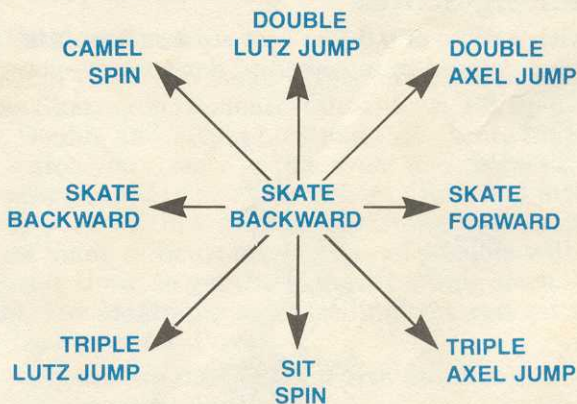

Figure Skating Tips:

AWKWARD: A movement will be judged as elegant or awkward, depending on when you press the **FIRE** button. If you're **skating forward** and "trigger" a jump when the skater's legs are in **open stride**, the jump will be perfect. If the skater's legs are **closed**, the jump will be awkward. The opposite is true if you're skating **backwards**: trigger the jump when the skater's legs are **closed** and the jump will be perfect. Practice makes perfect, so keep trying!

FORWARD SKATING performers can do a **Double** or **Triple Axel Jump** or turn around and begin skating backwards. Remember: Be skating forwards when time runs out--if you're skating backwards you'll fall down!

BACKWARD SKATING athletes can do a **Double** or **Triple Lutz Jump**, a **Camel** or **Sit Spin**, or turn around and begin skating forward.

When you do **SPINS**, try to make six rotations. If you turn fewer than six times, your exit will be awkward; more than six turns will make you dizzy and you'll fall.

Don't Fall Down!

You'll fall down if you try to move directly from a jump to a spin, a spin to a jump, a jump to another jump, or a Sit Spin to another Camel Spin. Skate backwards in between movements; skate forwards before you do an Axel Jump.

Camel into Sit Spin: You can move directly from a Camel Spin to a Sit Spin—a very elegant combination worth 1.2 points!

Figure Skating Scores

You begin with a score of **0.0** The best score is **6 points**. All scores are displayed in tenths. And don't worry--your score can't go below 0.

After you successfully complete each Figure Skating movement, your score is added like this:

MOVEMENT	POINTS
Camel Spin	.7
Sit Spin	.7
Double Axel Jump	.6
Triple Axel Jump	1.1
Double Lutz	.6
Triple Lutz	1.1
Camel into Sit Spin	1.2
Total Score	6.0

■ Total Score Penalties

- .7 Point penalty for each fall.
- .2 Point penalty for each awkward movement.

Free Skating

In **Free Skating** competition, you chose the jumps and spins, inventing your own choreography to music. You have two minutes to complete the program.

Free Skating Scores

In Free Skating, you try to make **three** successful attempts of the **seven** Figure Skating movements: Camel Spin, Sit Spin, Double and Triple Axel, Double and Triple Lutz and Camel into Sit Spin. The Judges will watch you closely in this event and calculate your **maximum score** based upon the number of falls and awkward movements in your routine. A smart performer will complete **three** attempts of as many difficult movements as possible within the two-minute time limit, to get the highest possible score. You begin with 0 points. The Maximum score (ceiling) you can get is 6.0--no matter how high your total score.

Note: If you successfully complete a fourth attempt at a movement the Judges will not credit your score.

Free Skating Scores

MOVEMENT POINTS EACH ATTEMPT

Camel Spin	.3
Sit Spin (1.8 points maximum)	.3
Camel into Sit Spin (1.5 points maximum)	.5
Double Lutz Jump	.2
Double Axel Jump (1.2 points maximum)	.2
Triple Axel Jump	.4
Triple Lutz Jump (2.4 points maximum)	.4
Total	6.9
(6.0 Maximum Ceiling)	

■ Total and Maximum Score Penalties

PENALTY	TOTAL	MAXIMUM
Fall	-.5	-.2
Awkward	-.2	-.05

Note: No penalty for failing to attempt all seven movements.

EXAMPLE:

Your Total Score:	6.9	Maximum:	6.0
1 Fall	-.5		-.2
2 Akwards	-.4		-.1
		Your Final	
Total	6.0	Score ↓	5.7

CREDITS: Only the movements completed within the two-minutes are scored.

Movement attempts will be added to your score only if they're successfully completed.

Speed Skating

Speed Skaters can move at 30 miles per hour--much faster than athletic track runners. In fact, Speed Skating champions are the fastest self-propelled

human beings over level earth!

In Speed Skating, two racers skate side-by-side, in separate lanes, as fast as they can go!

- When “**PRESS YOUR BUTTON**” appears on either half of the screen, the player whose name appears on that half of the screen must press the joystick **FIRE** button. The next player does the same. This begins the countdown.
- When the countdown reaches “**GO**,” begin skating by moving the joystick to the **LEFT** and **RIGHT** to move your skater’s legs. The trick is to make the skaters legs move back and forth as in real skating.
- Continue skating by moving the joystick back and forth in rhythmic strokes to move your racer’s legs. Build you natural skating rhythm faster to get up to speed--and **GO FOR IT!**
- The skater with the fastest time wins the race.
- When the race is over, press the **FIRE** button to begin the next event.

Hot Dog Aerials

This demonstration sport tests your guts, grace and precision on skis. Strive for a performance of athletic artistry as you flip through the air in a dazzling series

of daredevil moves.

- Push the **FIRE** button to start a jump.
- Push the joystick in one of these six directions to begin a movement:

- To do one movement after another, move the joystick when the Hot Dog Skier is in mid-air--timing is crucial.
- To get out of a move or begin another move push the joystick to the center (**LAND**) position.
- Hold each movement (except the **Flips**) until you choose a different move.
- Go into the landing position before you hit the ground, or you'll **Fall**.

Scores

The score is based on both style and difficulty, and is displayed after you land. The maximum is 10 points.

DIFFICULTY is judged by the number of different maneuvers performed in mid-air. Any combination of movements can be mixed together for a total maximum score of 10. Combinations of different movements count for the most points. Points will be deducted for awkward movements. Watch your landing! If you fall, you won't receive a score.

STUNTS	POINTS
1 Stunt	6.3
1 Flip	7.2
2 Stunts (Same)	8.7
2 Flips (Same)	9.2
2 Stunts (Different)	9.6
1 Stunt and 1 Flip	10.0
2 Flips (Different)	10.0
■ 1.4 point penalty for each awkward movement.	

CREDITS: Only the first attempt at each movement completed within the one minute is scored.

Ski Jump

Every gust of wind chills your body as you look down from the top of the jump tower to the runway far below. The judges and spectators look like insects from this height. GO! Your coiled body lurches forward and suddenly you're into another world!

You crouch down low, in a tucked position, to accumulate as much speed as possible. At the take-off, you leap out, push up, and lean forward, over the edge of your skis, to reduce wind resistance and increase the length of your jump.

- Press the **FIRE** button to begin your approach.
- When you reach the takeoff point, press the **FIRE** button.
- In the air, watch the upper right-hand corner of the screen for faults. Correct faults quickly to get maximum style points and distance.
 - If your knees are **BENT**, move the joystick **UP** to correct.
 - If you're **TOO FAR FORWARD**, move joystick **LEFT**.
 - **TOO FAR BACK**, move joystick **RIGHT**.
 - **SKIS CROSSED**, move joystick **DOWN**.
- If you don't correct your faults in time, your Ski Jumper's wild antics will cause **wind resistance** and lose style points.

Ski Jump scores are based on distance and form.

DISTANCE: is based on the timing of the takeoff, and the aerodynamics of the Jumper in the air.

STYLE: You'll get more points if you recover quickly from faults and don't fall.

Scores

Your maximum is tallied by multiplying your **DISTANCE** (\times) **3** (+) **STYLE POINTS**. A respectable **Ski Jump** score would be a flight of 60 meters and 20 style points for a total of 200 points.

Biathlon

Race over a cross-country track on skis with a .22 caliber rifle slung over your shoulder. You have only a few cartridges to fire at the required targets, so steady your sights and develop an eagle eye before you fire away!

- Press the **FIRE** button to start cross-country skiing.
- Move your joystick left and right to move your skier's legs in steady, rhythmic kicks and glides.
- On **LEVEL GROUND**, keep up a steady pace by moving your joystick back and forth.
- For **UPHILL** terrain, move the joystick faster to increase speed.
- **DOWNHILL** stretches go fastest if you use the double-pole technique. Pull the joystick down when the skier's hands are in front, to get the maximum push down the slope.
- **SHOOTING**: You are issued **five** cartridges to shoot at **five** targets, and every miss is a 5-second penalty. The gun must be loaded and the shell ejected after each shot. Pull the joystick **BACK** to open the gun chamber. Push the joystick **FORWARD** to load the shell. Push the **FIRE** button to shoot. Repeat for the next shot. The skier's heart rate affects your accuracy--so cool down, and take careful aim before you fire!
- The winner or high score is the skier with the fastest total time.

Bobsled

Prepare to careen down a track of solid ice--while you crouch in a precision-built machine of steel and aluminum. You'll fly around hair-raising turns, then plummet down the bumpy straightaways at speeds exceeding 90 miles per hour!

- Press the **FIRE** button to begin the race.
- Move the joystick left and right to guide your sled.

HINTS: Steer hard! To avoid capsizing at the turns, try to anticipate the pull of centrifugal force, and steer hard in the *opposite* direction.

Watch your speed! The power bar at the bottom of the screen shows how fast you're going. The faster you go, the harder you have to steer to keep plummeting toward the finish.

Learn the course! An intimate knowledge of the course is important, so you learn the best position to take each corner.

- The winning bobsled's score is based upon the fastest time through the tracks.

SCORING

Awards Ceremony

After every event, the names, countries and scores of all competitors are listed in the order they placed. The name of the Gold Medal winner appears at the top of the screen, and his or her country's national anthem is played.

Champion Ceremony

If players compete in all WINTER GAMES events, a Grand Champion of the games is selected based on the number of points awarded.

Gold Medal = 5 points

Silver Medal = 3 points

Bronze Medal = 1 point

The points are totaled after all events have been completed, and the player with the most points is honored as the Grand Champion. The ceremony takes place after the Awards Ceremony for the final event.

World Records

If a world record is achieved in any event, the name of the record-breaking player is saved by the WINTER GAMES program. The records are displayed on the World Records screen. If a new record is set for an event, the previous record is erased and the new information appears in its place.

Continuing Play

To restart WINTER GAMES at any time, press **RUN/STOP** and **RESTORE** at the same time. The program will return to the main menu. You may be instructed to turn over your disk at this time.

HOW DID WINTER SPORTS BEGIN?

Skiing, skating and sledding began centuries ago as fun and practical ways for people to move across snow and ice.

Skiing

The earliest skis may have existed about 4,000 or 5,000 years ago in Scandinavia. Ski bindings were invented in the 1860's by Sondre Nordheim, of Mordegal, Norway.

Once skiers could slip the toes of their boots into iron pieces, then fasten their heels with straps or springs, they gained much more control of their long wooden slats--and they could move with breathtaking speed. Norwegian emigrants pioneered the sport all over the world.

Skating

Skating began around 1000 B.C. Before the Iron Age, Nordic people made skates from elk, ox and reindeer bones. In fact, anthropologists have discovered bone skates they believe to be at least 20 centuries old!

Since the Middle Ages, people have skated on canals in Holland. Ice skating was a very fashionable recreation in the French court in the 1770s, when Marie Antoinette was an avid enthusiast.

Sledding

Primitive sleds were used for transportation before 3,000 B.C. in Northern Europe. The American Indians tied poles together with thongs to carry loads over snow.

The thrill of riding a speeding sled down a steep hill caught on in the 1500s in Germany, when people rode tobaggans over snowy hillsides. Sledding became a real sport when British and American tourists started racing sleds down snowbound mountain roads in the European Alps in the middle of the 19th Century. Bobsled races developed in the 1880s in Switzerland.

THE WINTER OLYMPIC GAMES

The first WINTER GAMES were held at Chamonix, France in 1924, when they were accepted as a celebration comparable to the Summer Games and given the official blessing of the International Olympic Committee. Since then, the WINTER GAMES have been held at the following locations:

WINTER OLYMPIC GAMES

Date	Place
1924	Chamonix, France
1928	St. Moritz, Switzerland
1932	Lake Placid, New York
1936	Garmisch-Partenkirchen Germany
1948	St. Moritz, Switzerland
1952	Oslo, Norway
1956	Cortina, Italy
1960	Squaw Valley, California
1964	Innsbruck, Austria
1968	Grenoble, France
1972	Sapporo, Japan
1976	Innsbruck, Austria
1980	Lake Placid, New York
1984	Sarajevo, Czechoslovakia
1988	Calgary, Ontario

SUMMER GAMES™ AND SUMMER GAMES II™ GO FOR THE GOLD IN SIXTEEN EXCITING EVENTS.

- Combine the events from SUMMER GAMES And SUMMER GAMES II
- Compete in Cycling, 100 Meter Dash, Diving, Equestrian, Fencing, Freestyle Relay, 100 Meter Relay, Gymnastics, High Jump, Javelin, Kayaking, Pole Vault, 4x400 Meter Relay, Rowing, Skeet Shooting, and the Triple Jump
- Complete with Opening, Closing, and Awards Ceremonies, including National Anthems of 18 Different Countries
- Play Against the Computer, or With Your Friends
- Individual and Head-To-Head Competition.
- One to Eight Players

LIMITED WARRANTY

EPYX, Inc. warrants to the original purchaser of this EPYX software product that the medium on which this computer program is recorded is free from defects in materials and workmanship for a period of ninety (90) days from the date of purchase. This EPYX software program is sold "as is," without express or implied warranty of any kind, and EPYX is not liable for any losses or damages of any kind resulting from use of this program. EPYX agrees for a period of ninety (90) days to either repair or replace, at its option, free of charge, any EPYX software product, postage paid, with proof of date of purchase, at its Factory Service Center.

This warranty is not applicable to normal wear and tear. This warranty shall not be applicable and shall be void if the defect in the EPYX software product has arisen through abuse, unreasonable use, mistreatment or neglect. THIS WARRANTY IS IN LIEU OF ALL OTHER EXPRESS WARRANTIES AND NO OTHER REPRESENTATION OR CLAIMS OF ANY NATURE SHALL BE BINDING ON OR OBLIGATE EPYX. ANY IMPLIED WARRANTIES APPLICABLE TO THIS SOFTWARE PRODUCT, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE NINETY (90) DAY PERIOD DESCRIBED ABOVE. IN NO EVENT WILL EPYX BE LIABLE FOR ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGE RESULTING FROM POSSESSION, USE OR MALFUNCTION OF THIS EPYX SOFTWARE PRODUCT.

Some states do not allow limitations as to how long an implied warranty lasts and/or the exclusion or limitation of incidental or consequential damages so the above limitations and/or exclusions or limitations of liability may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

SUPPLEMENT INSTRUCTIONS FOR WINTER GAMES
COMMODORE 64 DOUBLE-SIDED CASSETTE VERSION

Switch the computer off, remove any cartridges, connect a C2N Datasette Unit, and connect a joystick to Prot 2. Switch on, put a cassette in the Datasette Unit and fully rewind the tape to the left. Zero the counter.

To load the program, press and hold down SHIFT, then press RUNSTOP whilst holding SHIFT. Start the tape as prompted. When each section has LOADED press the SPACE bar to load the next section. The programme will start automatically when the last section has loaded.

In order to get the best out of the program, when working through the various events in sequence please keep the PLAY key on your cassette recorder depressed at all times unless otherwise instructed by a message appearing on the screen whilst the program is in use. This enables the computer to automatically control the cassette recorder.

For easy access to individual events, set the tape counter to zero before inserting the first or second cassette. Individual counter values given below

Side 1		Side 2	
		(without resetting the counter)	
Opening Ceremony	0 to 53	Ski Jump	225
Menu	64	Free Skating	258
Hot Dog Skiing	83	Bobsled	297
Biathlon	120		
Speed Skating	146		
Figure Skating	174		

The cassette version, because of limited capacity, offers slightly reduced number of options on the initial menu.

Loading problems are rare with the Commodore 64. If they do occur, it is usually because the recorder heads are dirty or misaligned. Clean them regularly with tape head cleaning fluid and check their alignment periodically. Keep the deck well away from the television as hum pick-up can also cause mis-read of data.

If you do experience loading difficulties, the computer will instruct you on how to reload (rewind to the last file then press PLAY).
