CAUTION

Anyone who uses the Dreamcast should read the operating manual for the software and console before operating them. A responsible adult should read these manuals together with any minors who will use the Dreamcast before the minor uses it.

HEALTH AND EPILEPSY WARNING

Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure.

If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using Dreamcast.

In all cases, parents should monitor the use of video games by their children. If any player experiences distress, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.

To reduce the possibility of such symptoms, the operator must follow these safety precautions at all times when using Dreamcast.

- Sit a minimum of 6.5 feet away from the television screen. This should be as far as the length of the controller cable.
- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

A WORLD WITHOUT HOPE

Gutsu (Guts to his friends) and Casca are the only survivors of a band of highly trained and feared mercenaries – the Hawks. The Hawks were slaughtered by the supernatural warrior clan, ominously known as the “God Hand.” In that final epic battle, Casca’s sanity was traumatically scarred by the carnage she witnessed. Even Guts’ love cannot free her mind. Now Guts roams the land searching for his destiny, a cure for his beloved Casca, and to exact revenge against the God Hand’s minions.

As Guts and Casca enter a region ravaged by years of wars and famine, a vile plague is sweeping the land. It has struck fear in peasants, townsfolk and nobles alike. Even the armies dread this approaching pestilence.

The threat is embodied in a horde of parasitic plants. Named Mandragora, these plants attach to humans and soon transform them into grotesque creatures – the Mandragorans. Once attached, the plants control all the actions of their unwilling hosts.

Little is known about Mandragora and its minions. But a strange voice was heard rising from the ground as Mandragora uprooted itself, and the aggressiveness of its attacks is legendary. Most of the land is now contaminated by these creatures. Rumor has it they congregate in a village near the castle protected by a nun.

Baron Balzac of this Kingdom is much feared for his skill in battle. But now he seems distracted as he searches for an antidote for the Mandragora plague. Can he dare to hope ...

CHARACTERS

Guts (Gutsu) is one of only two people to survive the solar eclipse massacre at the mercy of the God Hand's minions. He now wanders the world seeking revenge against them, armed with the mighty Dragon Slayer sword.

Guts was branded with a mark as he fled the God Hand's massacre. The brand serves as a tracking device for the God Hand, but it also forewarns of danger and imparts Guts' Berserk rage. It will change and bleed as God Hand draws nearer or when the minions perform a human sacrifice.

The Dragon Slayer is a fearsome 7-foot sword crafted for Guts by Godo the master metallurgist in appreciation for saving his life. Guts swings it with deadly accuracy, but because of its length it can catch on walls in narrow halls.

Once Casca was the feared leader of the Hawks. But the God Hand's massacre left her so severely traumatised that it drove her to madness. Her total recovery is in doubt. Only Guts' love may save her.

Puck is Guts' diminutive fairy partner. By nature cheerful and easily elated, Puck is a valuable elfin friend.

Rita is a travelling performer, perhaps of gypsy descent. An adept knife handler, she learned this talent as part of her performance. This fascinating street-artist is a strong-willed ally.

Baron Balzac is the tyrannical ruler of the Kingdom infested by Mandragora's minions. He is wise and strong, but his motives are clouded.

Eriza is the caregiver for Mandragora's victims. A woman of deep spiritual faith and compassion, she is opposed to Balzac's atrocity toward those afflicted by Mandragora.

Unteth is the leader of the underground resistance against Balzac. Strong and wise, he wants to find a cure for the plague in order to save his son.

Job is Rita's former travelling companion. A gentle giant of a man, he used to assist Rita in her street performances until he became possessed by one of Mandragora's minions (which attached itself to his chest).

Nosferatu Zodd, one of the oldest living servants of God Hand, has taken a liking to this region. He has assumed the form of a Minotaur and has become a formidable creature (who some say is the vessel of Griffith).

BERSERK MODE

During combat, with every successful attack or every blow Guts receives, his Berserk meter increases. Once the gauge fills up, Guts will go "Berserk." His eyes will glow with bloodlust and the screen will redden. During this brief time, Guts' speed will increase and his attacks will be extremely powerful. While Guts is Berserking, enemy attacks will inflict less damage to him.

SPECIAL FEATURES

Button Timer Sequences

During certain movie sequences, you can determine Guts' fate by pressing the button displayed in an on-screen prompt.

Multiple Paths

In certain areas of the castle, Guts can access shortcuts or different routes by slashing through doors or barricades.

Stage Save

Within the game, there are 3 automatic save stages. When you complete a save stage, a notification screen appears. After this happens, if your character loses all his lives, you will not have to start from the beginning of the game, only from the last save stage.

Lives Per Stage

You have a limited number of Lives (Continues) per stage. When you use a Life to continue a stage, your equipment ammo will be replenished. Once all Lives are spent, you will restart at the beginning of the current stage. The allotment of lives is 7 for Easy Mode, 10 for Normal Mode, and 13 for Hard Mode.

SAVING & LOADING GAMES

In order to save, you must have a VM in slot 1 of your controller. The controller needs to be inserted into Control Port A.

Saving Games

You can save the game from the in-game Pause Menu. To do this, press START, select QUIT GAME and then choose SAVE GAME. (While saving game data, never turn OFF the Dreamcast power, remove the VM or disconnect the controller.)

Note: When saving, you ONLY save the current stage you have reached, and not the current level you were playing.

Loading Save Games

You can load saved games from the Load Game or Options selections on the Main Menu. (See page 3.)
