SKYKID: THE MISSION

"SKYKID" is an exciting aircraft game originally created for the arcade. It's a mission that puts you right in the middle of all the action! The purpose of the game is to take off from home base, fly through the enemy's defenses and carry out your assigned mission. After you succeed in destroying the enemy and land back on base, you can go on to the next mission. In playing "SKYKID", you'll learn to fly your plane with the confidence of an experienced pilot.

PRECAUTIONS

Be sure to turn the power OFF before inserting the game pak or removing it from the unit.

This is a high-tech instrument. Do not store it in an area subject to extreme hot or cold temperatures. Never drop it, bump it or attempt to take it apart.

Avoid touching the connectors. Do not allow them to get wet or dirty. Doing so will damage the unit.
